MISSOURI S&T™

Graduate Education

2023 Graduate Research Showcase
Oral Session

Judge: _____

Session: _____ Time: _____

Instructions: Please use the following criteria as a guide, but you need not be limited by it. The total score should reflect what you believe to be the overall quality of the work presented. Be as specific as possible, and avoid rounding scores to increments of 5 or 10. Half points may be given.

Quality of research Consider the following: • Are there clear objectives, methods, results, and conclusions? • Are conclusions well-reasoned and supported by results? • If results are pending, is there evidence of progress toward objective and preparation to interpret results?	/40
Merit of research Consider the following: • Does the research have apparent real-world applications? • Is the research presented in a coherent context of academic literature, previous studies, etc.? • Are the broader impacts of the work given?	/15
Visual presentation Consider the following: • Are the slides well-organized? Visually appealing? • Is there a thoughtful and effective balance of figures and text? • Do the figures enhance understanding of the research? • Are figures presented with all information necessary to interpret them (axis labels, legends, captions, etc.)?	/15
Oral presentation Consider the following: • Does the presenter come across as a professional? As an expert (commensurate with their level of experience) in their subject matter? • Are the tone and pace of the presentation appropriate? • Does the presenter respond appropriately to relevant questions about the research?	/30
Total Score	**/100**

"Most Innovative" Award How innovative is the presented work?	**/100**
"Best Communication" Award How effectively was the presented work communicated to an interdisciplinary audience?	**/100**
